Experience

Kroto - Software Developer Intern [Certificate](#)

Nov 2023 - Apr 2024

I collaborated on **Next.js & TailwindCSS** codebase to add features, enhance UI and **redesign** multiple pages.

- Added **ask-query** feature on landing page, enhancing team communication for **300+** users
- Implemented lazy loading on **70+** files which save developers time **by ~80%**
- Constructed reusable components, pages, and forms with streamlined **Zod** validation integration
- Used **React Query** for creating and updating data fetching
- Tech Stack- **NextJS, Typescript, TailwindCSS, tRPC, Prisma**

Material depot(YC W22) - Frontend Developer Intern

Aug 2023 - Oct 2023

- Integrated **Mix Panel** Analytics tool for various functions, which **highly impacted** the product launch analysis
- Worked on two project on **ReactJS** and delivered their **MVP**
- Tech Stack- **ReactJS, Typescript, TailwindCSS**

Skills & Technologies

Languages	JavaScript (+Typescript) C++
Backend	Node & Express (+Deno) :: MongoDB Firebase
Frontend	React.js(+Next.js) :: Material UI Tailwind CSS
Coursework	Data Structures & Algorithms OS Computer Networks DBMS OOPs
Tools &	Git & Github Figma

Projects

Sync Code [GitHub](#)

4 Weeks

Developed a web application enabling users to create virtual rooms for synchronous collaborative coding.

- Frontend created with **ReactJS,Socket.io-client** and **codemirror**
- Used **Node/Express** and **Socket.io** for Backend
- Deployed application using **Heroku**

Movie Hub [GitHub](#) [Deployed](#)

2 weeks

A web application enabling users to search for movies and view details, including the director's name and genre.

- Built using **ReactJS** on frontend and **CSS**
- Used **RapidAPI** for fetching movies data and Deployed on **Vercel**

Tech Tune [GitHub](#) [Deployed](#)

1 weeks

This project aims to create a fun and engaging application that helps children learn music, explore new skills through interactive courses, and provide webinars that help children.

- Build responsive user interfaces with **NextJS & TailwindCSS** and enhanced user experience through implementation of Aceternity UI components; increased user engagement by 15%.
- Make a **Contact page** for users sending mails to developer if they face any issue which improve website development process with **~40%**

Achievements

- Solved **400+** Problems on CodeChef and HackerRank

Education

Bachelor of Technology in Computer Science & Information Technology

2020 - 2024

Mahatma Jyotiba Phule Rohilkhand University - Bareilly, India
